TO OUR PATRONS:

IN OFFERING to our numerous friends and patrons—located, as they are, all over the United States—the present new edition of our Illustrated Price List (a compilation necessarily incomplete, though neither labor nor expense has been spared to make it as complete, and useful in all its details as possible; the intention, being to lay before Penmen, Dealers and Schools a list which will answer the purpose of a COMPLETE Line Of Samples either to buy or sell goods from,) we desire to couple with it a reiteration of the aims put forth by us at the founding and establishing of our business; and we desire to impress upon our "out-of-town" friends the strong advantages of dealing where all that is implied in these principles is fully recognized.

These aims and principles are:

PROMPTNESS, ACCURACY AND FIDELITY

in the care and execution of all commissions, no matter how small, with which we may be entrusted. Promptness in forwarding quickly all orders. Accuracy in following closely all instructions. Fidelity in carefully appreciation all the interests of our customers. That these declarations have been strictly adhered to by us in the past, the remarkable growth of our mail order business during the past year—an increase of over five fold—is ample testimony. We carry an immense stock of all the goods enumerated in this list. Our purchases have been made under the most advantages circumstances; our arrangements for the transaction of our mail and express order business have been carefully perfected; our prices in many instances average lower than ever, and we are prepared to give values in every one of our departments that cannot be duplicated elsewhere. From those whose names are already on our books as customers we are sure of additional patronage; from those who have not yet favored us with their business we solicit a trial order, and we guarantee them every advantage and benefit which can possibly be offered. Respectfully,

CENTRAL CARD & PENMEN SUPPLY CO.

HOW TO ORDER GOODS.

PLEASE READ CAREFULLY

IN ORDERING, PLEASE ONLY STATE NUMBER AND PRICE OF ARTICLE WANTED. The Number refers us to the description and the Price designates the quantity. Write Plainly your own name, and that of your Town, County and State, also Express Office directions with the larger orders and give the number and name of street if your place has the carrier system.

ORDER BLANKS and printed envelopes, for the special convenience of our patrons, will be sent free to any address.

OUR TERMS are invariably "Cash With The Order." Our prices, are very low and we cannot afford to open accounts and extend credit on small purchases. To wholesale dealers and jobbers who send us satisfactory references we will make special terms.

C. O. D. ORDERS.—We can send goods and collect the money on delivery only when enough money is sent to prepay the Expressage, and thus protect us from loss, should the person not take the goods from the Express Co., as is sometimes the case. We would, however, advise remitting in advance, as the expense of return charges on C. O. D. packages are thereby saved to customers. To those who buy the heavier goods, viz: Cards, Papers, Inks, &c., in large quantities we advise transportation by freight as it is much cheaper. Many of our customers take advantage of this fact and more should do so.

THE PRICES in this Catalogue are positively net, for the respective quantities given. We give a per cent off, only, when goods are ordered in larger quantities than those quoted.

REMITTANCES can be made by bankdraft (on Chicago or New York), payable to our order, Post-Office Money-Order, Postal Note, Registered Letter or Express Money Order.

POSTAL NOTES may be procured at any postoffice, for amounts under \$5.00, on payment of 3 cents additional to sum desired. This obviates the necessity of sending stamps or coin in making change.

REGISTRATION.—For 10 cents additional to the regular postage, letters or parcels may be registered—an inexpensive means to safe delivery of goods which we strongly recommend to our patrons.

UNREGISTERED MATTER.—We cannot consider ourselves responsible for the safe delivery of unregistered letters containing money, nor for parcels sent in that way. As we use every precaution in the packing of goods, no allowance can be made if goods are damaged or lost en route.

REPLIES AND BILLS.—Itemized bills or shipment cards are sent the same day that goods are shipped together with balance due. If however any balance remaining over, will be returned, or placed to the credit of party, as desired. When asking for information, if you desire a reply, enclose stamp.

OUR SPECIAL FACILITIES enable us to furnish goods in our line, other than herein listed, at short notice. Purchasers who in any way feel dissatisfied, are solicited to give us due information; all complaints shall have our promptest attention as we aim to furnish The Best articles and satisfy our patrons in every respect, in order to keep up the reputation we now enjoy.

OBLIQUE PEN-HOLDERS.

SCIENTIFIC PEN-HOLDERS FOR SCIENTIFIC PENMEN AND ALL WHO WOULD WRITE WELL.

USED AND ENDORSED BY THE BEST PROFESSIONAL PENMEN IN THE UNITED STATES.

SMOOTH SHADING! FINE HAIR LINES! EASY WRITING! NO BLOTS!

PENMAN'S FAVORITE PEN-HOLDER

No 1. THIS Novel Pen-Holder enables one to write with ease and facility on the points of the pen, each point doing its full share of the work, as it should, and moving smoothly and easily along over the paper. By means of the Patent Oblique Attachment the pen is brought into Correct Writing Position and given a fair chance to do its best possible work, the Slant secured by the Holder approximating that of the current Semi-Angular Penmanship.

The Oblique Holder is now almost universally used by Professional Penmen and all Good Writers, as they find it to be a valuable aid to fine pen-work. With it an expert Penman can produce Smooth, Artistic Shades and Fine Hair-Lines with marvelous ease and precision. For Copy-Writing or Fine Business Penmanship, it is almost indispensable.

When used in this Holder, a pen is far more durable than in an ordinary holder; for with an ordinary Holder, held in the usual manner, the pen writes across the points, thus causing it to scratch and wear out in a short time, as the work is nearly all done by one nib.

The Penman's Favorite is, in every desirable feature, fully equal to the best of the Oblique Holders now in the market. It is used in the leading schools and colleges and is endorsed by hundreds of our best and most successful teachers. Try it, and you will like it.

TWO HOLDERS IN ONE.—This Holder is grooved in the end as shown in cut, so that, if desired, the Metal (Oblique) Attachment can easily be removed, thus making an excellent Straight Holder for the use of beginners. Hence, it will be seen, the Penman's Favorite is really a Double Holder. When the Holder is not in use, the bulb or swell shown in cut, keeps the inky pen up from the paper and table, thus entirely preventing vexatious blots. This is an important but novel feature which Teachers will appreciate.

Finish.—These Holders are finely finished with permanent Lustrous Ebony Enamel. The Oblique Attachments are of a durable Composition Metal. The Holders are strictly first-class in every particular.

PRICES.—One Holder 10 cents; three for 25 cents; 40 cents per $\frac{1}{2}$ dozen or 60 cents per dozen, postpaid. SPECIAL WHOLESALE PRICES: Per Gross by Express, \$5.00, or by Mail, postpaid \$5.25. Orders for less than One Gross will be filled at the Dozen rate—60 cents, postpaid.

SOMETHING NEW! A REVOLUTION IN TEACHING PENMANSHIP!

TRIANGULAR OBLIQUE PEN-HOLDER.

CORRECT PEN-HOLDING! SMOOTH WRITING! UNIFORM SLANT!

No.2. THIS NEW PEN-HOLDER embodies important features of great merit never before combined in a single Holder, and it is certainly destined to supersede all others for general use, especially among teachers, pupils and good writers. A thorough trial will invariably demonstrate its superiority.

1. IT IS AN OBLIQUE PEN-HOLDER—the only form or style of a Holder that brings the pen to the paper at the proper Slant to run easily and to shade smoothly. It is a Scientific Holder adapted to the use of all who would write well.

2. IT IS A TRIANGULAR HOLDER.—Its Shape, in combination with the Oblique Attachment, certainly secures Correct Pen-Holding, ensures Smooth and Easy Writing. It imparts a power and certainty of Stroke, and produces a uniformity of Slant not otherwise obtainable.

3. IT IS A WONDERFUL AID TO ALL WHO ARE LEARNING TO WRITE.—The flat sides of the Holder afford excellent rests for the thumb and first two fingers and almost compel them to assume and maintain the proper writing position. Many teachers find that this Holder greatly lightens their labors in teaching Position and Pen-Holding, and at the same time almost doubles the improvement in their classes. Private learners also find it to be a remarkable aid.

4. IT IS "JUST THE THING" FOR PENMEN, BUSINESS MEN, and all who would write Easily. With this Holder, the pen is invariably brought to the paper at the same angle, and that the proper angle. Both points of the pen meet the paper fairly; thus they wear down uniformly, and last twice as long as they would in an ordinary Holder, always running smoothly and easily. There is no "scratching" or "sputtering." You can pick up the Holder and launch right out without any preliminary testing to get the proper slant, etc. Swing the pen right on to the paper; it will strike it right every time and run smooth from the start.

5. IT PRODUCES UNIFORMITY IN WRITING.—You seldom pick up a round Holder twice exactly alike. Your wrist unconsciously rolls out of true position, your movement is more or less "broken up," your pen scratches, you can hardly tell why, and good work is impossible. Now by reason of its shape you will be compelled to grasp this Holder exactly the same way every time. Your Fingers and Pen will certainly be in proper Position, and a little attention to the arm rest, will then enable you to produce far more uniform work than with an ordinary Holder. You can repeat it every day and your writing will always be alike. The Holder affords assistance right where aid is most needed.

OBLIQUE PEN HOLDERS.- CONCLUDED.

6. IT IS EASIER TO HOLD THAN OTHER PEN-HOLDERS.—The flat surfaces exactly fit the thumb and fingers and, while allowing them unusual freedom, compel proper position, furnish the best and easiest possible rests for them. It allows the maximum economy of muscular force—the lightest possible grasp holds it in position. It prevents or cures Penman's Cramp or Pen Paralysis. Telegraph Operators, Accountants, Correspondents, and Penmen find it a great relief in constant writing. There is no tendency to grasp this Holder too tightly and it does not cramp the hand. It accomplishes the most gratifying results, and yet does not feel awkward or bungling in the hand. It is very simple and durable and is "just the thing" for all who write much.

7. IT MAKES ANY PEN RUN "SMOOTH AS A QUILL."—Both points of the pen are brought to the paper at the same angle and they cannot "scratch."—The Holder is held in a position so easily that the grasp, even though once far too firm, gradually becomes lighter and writing, previously a laborious process, becomes a genuine pleasure.

8. IT NEVER ROLLS OFF THE DESK OR TABLE; will admit the use of any ordinary pen; is finished in first-class style; is sold at reasonable price; and is rapidly growing in popularity in Schools, Colleges, Counting Rooms, etc.

PRICES:—TRIANGULAR OBLIQUE PEN-HOLDER, Elegant Ebony Enamel Finish, 10 cents each; 3 for 25 cents; 40 cents per 1/2 dozen or 60 cents per dozen, postpaid. Special Wholesale Prices: Per Gross by Express, \$5.00. or by Mail, postpaid \$5.25; Per 1/4 Gross in Neat Box with Label, postpaid, \$1.60. Special prices on large lots. Orders from Schools and the Trade solicited.

THE SPENCERIAN OBLIQUE PEN-HOLDER.

No. 3 The above cut illustrates the Spencerian Oblique Holder, and needs no commendation, as it is in popular use by Professional Penmen, Accountants, Students and good writers generally. Prices:—One Holder, 12 cents; 3 for 30 cents, 50 cents per 1/2 dozen or 65 cents per dozen postpaid. Special prices on larger quantities.

THE EXCELSIOR OBLIQUE PEN-HOLDER.

No. 4. The above cut represents the New Excelsior Oblique Pen Holder. This Holder by reason of its Convenient Size, Fine Form, Great Durability and Low Price bids fair to outrival in Popularity all other Holders for Professional use. The pen is firmly held by a piece of nickered brass, and does not twist around or pull out, as some others do. They are neatly put up in 1/4 gross boxes, and are finished in black and natural wood.

Prices:—One Holder, 10 cents; 4 for 30 cents; 60 cents per dozen; \$1.60 per 1/4 gross box. postpaid. \$5.00 per Gross by Express or by mail postpaid \$5.25

PENMAN'S DRAWING INSTRUMENTS.

This Catalogue truthfully describes the most complete and reliable assortment of Instruments, comprising; Superior Swiss, German and French Instruments.

The "Superior Swiss" and the "German Instruments" which we offer, are each a specific make, made for us exclusively.

Our "Superior Swiss Instruments" are the very best that can be produced and of the most approved and perfected pattern. They are particularly adapted to the requirements of Artist Penmen.

Our "German Instruments" will give good satisfaction even to the professional Draughtsmen.

The French Instruments recommend themselves for their very low price and comparatively satisfactory Workmanship. They will answer their purpose for apprentices etc. but are not good enough for Professionals and Experts. PRICES OF DRAWING INSTRUMENTS INCLUDE POSTAGE.
