By way of dedicating Vol.1, No.6, March 2, 1936:
NUTS TO THE ECW FOR DIGGING DITCHES IN PORTER COUNTY

SHIELDS AND EMBLEM FOR BARRACK

WE HEAR THAT:

Joseph McCormick (leader) suggested at the leaders meeting last Friday night that each of the barracks have a shield with an emblem upon it. This suggestion meets with the most approval on the part of Captain Davis, our Company Commander. Suggestions are now in order: It is desired that each man in each barracks make a design and submit it to his leader. The leader will then choose what he thinks is the most desirable of the shields and designs and will then combine them to make the Barrack's Shield and Crest. Captain Davis will offer a prize to the barrack with the best emblems. Please watch this paper for further announcements in regard to this matter and be sure to hand in your design or your idea to your leader just as soon as you possibly can

Lloyd Buck's doe lives on lamb street.....
Boles is King of the Idlewild...
Willie is the Clark Gable of C..
C. land.....
Witters (Doc) is the Bloomington Jiggolo.....
Toofie John is teachers pet.....
Zenan has to tie ribbons to his men in order to tell them from convicts.....
Jessup has boots, now all that, he needs is a saddle and perhaps an ---.....
A.Mounce fit three men at once..
Vic Goodin and Ted Parnowski, can really use a coal bucket---, but strange as it may seem they are neither one on fire guard .
Phelps and Neddeff joined the Polar Bear Club last week. they have been practicing for quite a while on O.D's. How about an exhibition some cold morning?
The Lost World's a good picture.

ARD LEAVES

A CHANGE OF THE WEATHER

Hobart Ard, (leader) from barrack three left for home and a job in Kentucky. All of the boys from his barrack will miss him, and will have to hunt for a long time to find a man who will be able to take his place. Most anyone can fill a leaders place but it takes a real man to take the place of a good leader and make good at it
ADVISER N.K.Jessup

After the last month and twenty some days of constant sub-zero weather, ranging from zero to twenty seven below, the last week of warm weather is really quite welcome in spite of the ankle deep mud. Yes sir we'd call it a welcome change of the wetter.....
WRITE OUT YOUR JOKES AND HAND THEM TO "DOC" WITTERS EVERY DAY.
