By way of dedicating Vol.1, No.7, March 3, 1936:
NUTS TO THE MAJOR FOR HIS CANINE GIFTS

COMPANY DANCE

This is a proposition like the one: If we had some mush we would have some mush and milk, if we had some milk. Our idea is that if we can get the Hill-billy Band to play, and if we can get some one or some few to call, we will have a dance in The Mess Hall this coming Sat. night. (You all furnish the gals) Now if you are interested, then get your Band, and get your caller; and we will have the dance. If you have anything to ask about arrangements, see that Magnetic Personality : Eugene Murray or Yours truly, Little Doc. Witters. Come-on do it now

AVIATION CLASS TO START SOON

Captain Davis has stated that he is now prepared to have a lecture class in Aviation. Any of you fellows that are at all interested see him at the earliest possible time, for the particulars concerning the how when, and where of the class. It is one of the classes where you won't have to come, but you may not get to come if you do not get your bid in in time. The class promises to be one of the most interesting and practical classes that this camp will ever have the opportunity of attending. So: find out from Capt. Davis while you can get in
M.K. Jessup ADVISER

SOMEONE SAID THAT:

Lt. Landaw believes that the best office furniture has marble tops. (we will bet him an even two to one that they don't all get polished with a towel). It wasn't a woman in distress that we heard last night, but only the Majors dog having one of those night rabbit hunts in the quarters. The loud slamming noise some time later was only Eger willingly letting the poor little fellow out for some air. (Question: For pup or Bill?) Ray Wood ask Neddeff what kind of pine trees they got those delicious Pineapples off of. Thanks Neddeff, tell us another.

PHOTOGRAPHY CLASS

A photography class will not be started. It has been in session for it's weekly session for one whole week. Yawsuh the scientific Mr. Blacketer took the bit in his teeth, all of the tucked the curious and avid Mr. Roames under his arm and went to work last night. The net results of the nights or rather evenings work under the dark light was a group of very good prints. The equipment will be available to any member of the camp who cares to use it. See Mr. Jessup for other information Concerning Photography Classes. NEWS TO ME IS NUTS TO YOU. "DOC!"
