By way of dedicating Vol.1, No.10, March 6, 1936:
NUTS TO THE BEST BAKER WE KNOW: I MAKE EM AND BAKE EM-MORRIS HIPP

CARE AND FEEDING OF THE BABY

When this paper was first started we stated that it was your baby. You all have been neglecting the infant and now we hear one or two complaints because it has the colic or a digestive disorder of some sort. If you want your name or the names of some of the fellows in camp in the paper you will have to hand the news in. Several of the fellows have been a real help in gaining news and a few have done nothing but gripe. It is up to you fellows to make of this paper a sheet that will be something of interest to all of the fellows in the camp. Will you all pitch in now and let us know what the barrack news is? How about you leaders picking out a man from your barrack for each day and having him hand in the news? One article would be a big help and would make this paper of interest to everyone.

CAPTAIN HAYES HERE YESTERDAY

CAPTAIN E.T. HAYES? 19th. F.A., District inspector for the CCC, made an informal tour of the camp yesterday. We hear unofficially that he said that we had the best Mess Hall, and the best Rec. Hall in the state, and that the Infirmary stood in a class by itself. THANKS CAPT.

DAILY CLOTHES CHECK.

"PEE WEE", Dunakeski takes check on his locker box, and on his bed every night after the lights go out. The boys thought they would get to sleep Thur. night, because Pee Wee lost his keys, but luck favored Pee Wee and turned her back on the boys. He found the keys. Do you take a bed check on yourself too Pee Wee? (Bring another for us Buck)

SEE YOURSELF AS OTHERS SEE YOU.

We had a mighty fine camp night program last night. Those pictures of the C.C.C camp will give you an idea of how the CCC boys life looks to the man who is on the outside. From the remarks that we have heard we have an idea that a lot of the boys were thinking of days gone by when they were in some of the camps that were shown in the pictures. Tell us about it.
