Byway of dedicating Vol. 1, No. 11, March 9, 1936:
NUTS TO JOHN S. WITTERS FOR GETTING SCARLET FEVER & STAYING HOME.

EDITOR SICK

It is with great regret and a little surprise that we announce that J. Witters, active editor of the daily "NUTS" became ill with scarlet fever while at home on a week-end pass. You have our best wishes and sympathy, John. And in the meanwhile the Ed. Adv. is a little annoyed that he has to publish the NUTS single handed when he so badly needs to be at work on the VALPO VANE.

VANE

Speaking of the VANE reminds us that the VANE got honorable mention in the Corps Area rating last month, and that this week's issue of Happy Days carries a four star rating, the highest given to camp papers.

RETREAT

Today marks, on our calander the resumption of retreat formations in camp D-4, suspended through the winter. Under the capable direction of Capt. Davis of the Marines it will not be long until we have a snappy formation every evening and we are looking forward to having some of the people of the near by communities visit us to see the boys put on this little act.

MOVIES

We had visitors for Sunday

evening movies-----Mr. and Mrs. Harding of Valpo. The movie has started a great argument as to just when it was first produced. Guesses run all the way from 1918 to 1929. Capt. Davis says he hasnt seen the show since he was a small boy, and the Educational Adviser says he was to small to remember seeing it at its first showing.

WHY DONT by Whoozits

- WHY DONT--Miss Barrett bring her girl friend out to teach?
- WHY*DONT--Lt. Houser quit losing his campaign hat?
- WHY DONT--- Benny come back?
- WHY DONT--Max Boyan get him a dog?(He's got two!!)
- WHY DONT--Somebody tell Boles that was a stop light?
- WHY DONT--Mr. Jessup go to bed? (we know)
- WHY DONT--Eger go to Michigan city anymore?

Now that Mr. Jessup has his Packard out of hock we dont know what to expect but we are afraid someone is going to have to wash it pretty soon. We understand that Evan Witters helped change a tire on it. Probably serves him right. Capt. Davis wonders how a Packard driver gets by on five bucks a year for tires. So do we.

Wonder what Hipp is baking to night? Guess we'll go and see.
