**TRINITY LUTHERAN CHURCH (PHOTO 1980)**

Trinity Lutheran Church is not stone and mortar, nor is it programs and activities. Trinity Lutheran Church is people - people of all shapes and sizes, of all ages and outlooks, of all occupations and interests, of all talents and abilities - a diverse group of people. But in their diversity this group of people is united into one body by their common worship of, dependence on, and service to the one Lord Jesus Christ. In Him lies the reason for Trinity's existence; in Him lies her strength; in Him is her courage for the present and her hope for the future.

OUR FIRST BUILDING (PHOTO 1944)

## BRIEF HISTORY OF TRINITY

Trinity Lutheran Church of Valparaiso was organized on Trinity Sunday, May 27, 1934. The first two services were held in the home of Mr. and Mrs. John Schlundt, 257 Michigan Street. The wise action of Mr. John E. Sievers in obtaining an option on the former "Dr. Vincent Property" enabled the congregation to purchase the building on the northwest corner of Chicago and Washington Streets. The congregation immediately began using the newly acquired property, even while extensive remodeling was being done by the church members. A chancel seating about 200 people was provided on the first floor. A five-room apartment on the second floor was to serve as parsonage until 1945.

On January 1, 1944, as the 10th anniversary year began, there was \$7,176.74 in the Building Fund for a new church, to which \$6,688.88 was added during the following twelve months. In August 1944 the former Bondi home to the north of the church was purchased for use as a parsonage. The cost was \$7,350.00, in addition to which about \$750.00 was spent for decorating and improvements. On Trinity Sunday, June 4, 1950, ground was broken for the new church, and the new building was dedicated two years later on June 8, 1952. In April of 1957 the Dreschoff property was purchased and on June 16, 1957, the \$70,000 mortgage on the church was burned. In October of 1958 the Dierking property north of the church was acquired, laying the final foundation for the eventual construction of the education wing. On Trinity Sunday, June 1, 1968, ground was broken for the educational wing and on May 4, 1969 Sunday School classes moved into the essentially completed building.

March 16, 1975, marked the beginning of Trinity Lutheran Church's latest era with installation, for the first time, of an associate pastor to serve Trinity's expanding membership and ministry.

The new Hendrickson tracker action pipe organ in Trinity Lutheran Church, dedicated On April 8, 1979, was designed by Charles Hendrickson of St. Peter, Minnesota, in collaboration with the organ committee and organist of the church. After extensive travels to hear the organs of several builders, the committee recommended that the new organ be built by the Hendrickson Organ Company and installed in the balcony of the church. This recommendation was adopted by the congregation.

The organ employs mechanical (tracker) key action. By this method, each key of the console is connected by mechanical means directly to the air valves in the chests. These trackers are made of wood and metal and occupy an extensive network of complex raceways from the console through the floor to the organ itself.

Extensive rebuilding of the balcony was required in order to achieve the proper location of organ and choir. The floor was rebuilt with a new steel and wood structure which includes the tracker raceways. New hard tile flooring was installed, and the entire area was made capable of holding the musical forces of the church. New lighting and redecorating were also necessary, and an open metal railing has been installed at the front of the balcony.

The organ is a sizable instrument consisting of 20 stops, 30 ranks, and 1464 pipes. All but 32 of the pipes are made of metal (alloys of tin, lead, and copper). The remaining 32 pipes are in laminated wood. They are the largest and heaviest pipes, and are suspended high up under the roof of the organ case. Provision has been made for three additional stops which can be added at any future time. (These three stops will be installed in the fall of 1980.)

**Field** \_\_\_\_\_ **Degree** \_\_\_\_\_

**Special Training** \_\_\_\_\_

Each adult in the family should fill in a separate Profile.

One mission of this church is to minister to each member as a total person. Only by knowing each member in some detail can this become possible. To better enable us to know you so that our ministry may be more effective, please fill in the information requested on this form as completely as you can and return it to the church office.

As a member of this church you will find many opportunities to share the abilities with which God has blessed you. Often we think of sharing only in terms of money and material things. As you fill in the "Your Service Abilities for Our Church Development Program" section of the form, you may become aware of opportunities to share in the life of the church. By indicating your interests and qualifications, our church will be better able to offer you opportunities to serve that you will find interesting and challenging. May the Lord bless you richly as you share that with which He so generously endowed you.

UNITED CHURCH DIRECTORIES
